Hello Sandie, Nancy, and Chris-

I can't tell you how grateful I am for everyone stepping up and coming to assist Houston while we are going through this transition phase.

This experience has taught me not to take things for granted. I am still in awe how I was at work one day, and having major brain surgery two days later.

My recovery is going well as expected. I have to remind myself I had a major surgery and healing is now what's required of me.

Glad to hear team Houston is working together and respecting my healing time. Please note, I am forever grateful once again to all of the Houston team, CSEC management, HR, and all others that prayed for healing for me and my family. Those that are giving up time from their center and family to come help Houston. (I am overwhelmed) with this type of support. It truly shows the true meaning and dedication of team work.

I will stay in touched with everyone as I continue to reached the highest level of recovery that's expected of me.

May God's blessing continue to be upon all of you.

Most gracious, Thank you!

Artis Ellis
